PRICES ALL GO TUMBLING

Declines of a Dozen Points Made and in Some as Much as Thirty Points. Slight Rally Sets in Before Close, but Transactions Are Small-The Crop Reports Are Better.

New York, July 26.-Liquidation that had swept away prices in the four previlence lat pfd... ous market sessions fairly deluged the stock market to-day. It began instantoneously with the opening of the market and continued entirely without interruption until the last hour and the slight rally that then ensued was not convincing enough to show beyond doubt that it had

The entire list suffered from it and suffered severely. Yesterday a break of preferred and somewhat smaller declines in other specialties had shown the weakness of the market position of such securities and had impelled the banks to Rock Island com scrutinize loans carefully with the result that calls for additional margin on loans St. Lo secured by securities of these classes

Wall street operators were quite as keen as were bankers in appreciating the hazardous position of the nondivided hazardous position keen as were bankers in appreciating the T hazardous position of the nondivided paying stocks, and specialities, and such curities were offered for sale in ex- Union Pacific pid traordinary quantity and variety from the time the session opened.

No Demand for Stocks.

As seemingly they had expected, the Amal. Copper. general weakness of purchasing power Am. General Sugar. Am. Can. com. Can. com. can. com. standard, active stocks betokened an althe other class. Stocks like Missouri Pa-cific, Southern Railway preferred, and Rock Island preferred, broke widely be-tween sales until they sustained to the stock in the sales and the sustained to the sales are the sales and the sustained to the sales are the sales and the sales are the sale tween sales until they sustained such losses as 12%; 7%, and 16 points respectively.

Scores of others also showed greater weakness than on any previous day of the year and a break in sole for the y

the year and a break in price further impaired the value of collateral, the liquidation became more impulsive and excited as it continued. It extended quickly and inevitably to the standard active stocks and the session was not half over before market was more badly demoralized than on any previous day of the year or for that matter, on any previous day since

stocks suffered as greatly as did the others. A block of 300 shares of Delaware, Lackawanna and Western, for instance, sold thirty points below the price at the last previous sale, and small offerings of New Jersey Central stock depressed the price seventeen points. Before the liquidation was stayed the market was intensely active, more than 1,000,000 shares changing hands before 2

Moderate Rally Sets In.

In the last hour, when a moderate rally set in, transactions were not as large or as frequent. The rally resulted in the recovery of only a small portion of the C. B. & Q. joint 48..... 954 losses, and the price level at the close was well below the previous low average

accord with the course of the market. Corn, cotton, and wheat reports were all somewhat more favorable, and all of all somewhat more favorable, and all of Quotations furnished by W. B. Hibbs & Co., these commodity markets were weak. The only change in the money situation ling. was a slight improvement.

The quarterly statement of the Steel Butte Coalition Corporation, though not given out until Chicago Subway... after the close of the market, was in most respects better than had been exGiroux Copper....

Few more feverish days have been experienced in Washington than yesterday in the local branch houses connected with the New York Stock Exchange. A good many investors in Washington have been buying stocks of late on the supposition that they were low, if they had not reached the bottom. Yesterday men were watching their investments with a good deal of nervousness. From the first clicks of the ticker prices began to sag and continued to go down all day, with only one or two feeble railies. One of lower. only one or two feeble rallies. One of these came at the close, when some of the leaders gained nearly a point.

It was a hard day for those with narwere obliged to put up money to cover or lose out, and the prospect was anything but encouraging. Larger crowds arou the tickers have not been seen in Wasi ington in many a day.

GRAIN AND PROVISIONS.

Business was very dull on the local stock exchange yesterday. Only a few brokers were in attendance, and these had only small orders to buy. As a consequence, no bonds were sold, and the stock transactions amounted to only 118 shares, of which the greater number were Railway common, which sold at 22. Gas was a little stronger than on the previous day, going at 73, while Lanston showed a decline to 80. Union Trust sold five shares at 131.

Few more feverish days have been expected by W. B. Ribbs & Co., members of the Chicago Board of Trade, Hibbs Building. Chicago, July 26.—Wheat opened steady to a shade easier, held fairly firm during the easily part of the session, when selling by local longs and commission houses—the latter thought to be possibly for Wall street account—caused a running break of 1% a bushel. The weakness in the stock market and hedging against liberal country acceptances were factors contributing to the decline. Southwest-em markets were firmer than our own. Minneapolis, and hedging against liberal country acceptances were factors contributing to the decline. Southwest-em markets were firmer than our own. Minneapolis, and hedging against liberal country acceptances were factors contributing to the decline. Southwest-em markets were firmer than our own.
